

# Snap Curtain

## Removable Mesh Cubicle Curtain

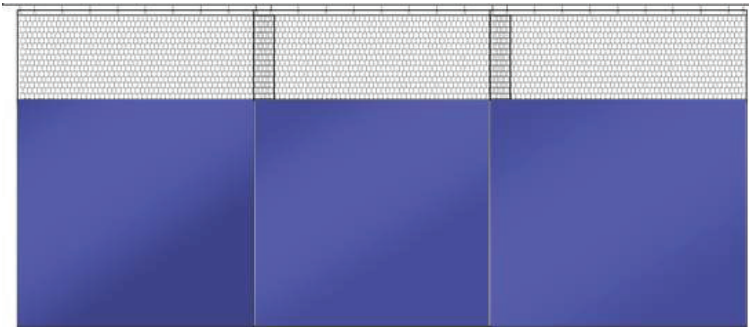

- Curtains can be removed from the mesh for laundering purposes
- Each fabric panel measures 68" x 68" with mesh lengths of 12", 20", 22", 28", or 36". Custom panel lengths available upon request
- Multiple panels fit on each track with a 4" overlap to provide complete coverage
- Fabric panels can be made from any fabric of your choice

Managing your facilities' cubicle curtains has never been easier. With the Snap Curtain modular system, just a single panel can be replaced and laundered if a curtain becomes soiled in one spot, without removing the entire curtain. No longer do you need to measure curtains to find which curtains go on which track. All panels are the same size, simply place the appropriate number of curtains on each track to provide adequate coverage.

Save time and money with the Colton Snap Curtain. Each curtain can be removed from the mesh for laundering leaving the mesh hanging on the track.

A ladder is not needed to take down curtains, the snaps can be reached while standing on the floor.

Ordering curtains is easy. Simply order the number of panels needed to cover the width of your track and the appropriate mesh length to fit your ceiling height. If you need help with the measuring process, a sales representative is available for consultation.

For more information about the benefits of the Colton Snap Curtain system as well as

measuring and ordering instructions, go to our web site at [www.coltoninc.com](http://www.coltoninc.com) or call us directly at 801-969-3453.

**Number of Panels Sizing Chart**

Panels	Track Size
1 panel	30" to 58"
2 panels	59" to 98"
3 panels	99" to 162"
4 panels	163" to 226"
5 panels	227" to 290"
6 panels	291" to 354"

Based on the curtain being a minimum of 30" or 30% wider than the track.

**Mesh Size Chart**

Mesh Size	Ceiling Height
12	86" to 92"
20	94" to 100"
22	96" to 102"
28	102" to 108"
36	110" to 116"
Call for special sizing	117" +

(Keeps curtains 6" to 12" off floor)
